EXPERIENCE SUMMARY

React.js Developer with 2+ years of experience building scalable Single Page Applications (SPA) and RESTful backend services using Node.js and Express.js. Skilled in React Hooks, reusable component architecture, API integration, JWT authentication, and MongoDB. Strong understanding of responsive UI design, state management, and clean code practices. Passionate about performance optimization and delivering user-centric web applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap

State Management: Redux, Context API

Backend: Node.js, Express.js

Database: MongoDB, Mongoose

Authentication & APIs: RESTful APIs, JWT Authentication, Axios, Fetch

Tools & Platforms: Git, Postman, VS Code

WORK EXPERIENCE

1. **Software Developer | GoNexus360**
   Aug 2024 – Feb 2025
   Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript, Bootstrap, Git

   Responsibilities:

   - Developed and maintained responsive web applications using React.js with functional components and Hooks.
   - Built reusable UI components to improve code maintainability and scalability.
   - Integrated frontend applications with RESTful APIs using Axios and Fetch.
   - Implemented authentication and protected routes using JWT.
   - Collaborated with UI/UX designers and backend developers to deliver features within deadlines.
   - Used Git for version control and team collaboration.

2. Software Developer | VS TECHNOSOFT LLP
Jan 2023 – Aug 2024
Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript, Bootstrap, GitHub

Responsibilities:

- Developed Single Page Applications (SPA) using React.js.
- Implemented state management using useState, useEffect, props, and Context API.
- Designed and integrated RESTful APIs with frontend applications.
- Built backend services using Node.js and Express.js.
- Designed MongoDB schemas and implemented CRUD operations.
- Implemented JWT-based authentication and authorization.

ACADEMIC PROJECTS

Coffee Shop Management System

- Developed using Java (NetBeans IDE 8.2) and MySQL database.
- Built billing and order management system.
- Generated reports for customer orders, payment details, and product inventory.

Agro Vision Billing System

- Developed using Java and MySQL.
- Built product management and billing system for agriculture products.
- Generated automated bills and managed product records.

EDUCATION DETAILS

Master of Computer Applications (MCA)
Savitribai Phule Pune University
Year: 2023 | Marks: 83.61%

Bachelor of Computer Applications (BCA)
Savitribai Phule Pune University
Year: 2021 | Marks: 75.95%
